### **Douglas County Community Services Foundation Nears Its Goal**

**June 11, 2014- Minden , NV** -Thanks to a continued outpouring of generosity from Douglas County residents and the Foundation's partnership with the Young At Heart Senior Citizens Club, the Douglas County Community Services Foundation is well on its way to meeting its fundraising goal to open the new Community & Senior Center upon completion. Just recently the Foundation updated its funding goal, tipping over the half million dollar mark, to fund the first priority of needs for the facility.

"This is an important milestone for the Foundation and should indicate to the community that the Foundation will be able to fulfill its commitment to equip the facility in advance of its opening," said Bob Cook, Chairman of the Douglas County Community Services Foundation. "Although there is more work to do, we are very proud of the fact that we have generated a tremendous amount of community interest and raised funds privately to spend locally to equip the building."

Chairman Cook stated the foundation has purchased a walk-in cooler, walk-in freezer, security systems, door hardware and kitchen equipment. Cook elaborated on the special relationship that the Foundation has with the Young At Heart Senior Citizens Club who has contributed over \$190,000 towards the senior portion of the equipment.

"Buy A Brick sales which have generated over \$25,000 in individual contributions and funds continue to pour into the Foundation assisting with this important task of meeting our funding goal." said Chairman Cook.

The County Board of Commissioners receives quarterly updates on the progression of the building confirming its completion is on schedule and within budget.

For those interested in contributing to the Douglas County Community Services Foundation and supporting the new Community & Senior Center, please visit the Foundation's website at [www.dccsf.com](http://www.dccsf.com) or call 775-782-9828.
